

# Bandolero – Battery

## Rule specifications –

A Bandolero battery is teched for weight. The battery must weigh 15 lbs. to 25 lbs. or be a Feather Lite lithium battery or an Antigravity ATX-30 battery as delivered by US Legends. A quick check on the battery will be to tap on the battery to see if it is solid or hollow.

## Penalties for violation of this rule –

If an inspector finds a battery that does not meet the specifications listed above or the specifications in the current rulebook, the inspector will disqualify the driver and confiscate the battery.
