"NEW PART" BULLETIN

US Legend Cars Manufacturing & Parts Sales is currently offering a Legend Car exhaust collector that has a port in it for the use of an exhaust sensor. This port is intended to be used at your shop or during practice to monitor your exhaust. This port is to be capped off or plugged during any on-track competition. Gauges / sensors are not permitted to be used or connected to this port in any way during any INEX sanctioned competition.

Scott Reinhardt (INEX General Manager)
