

LEGEND CAR FRONT BRAKE DISC

US Legend Cars International will be transitioning from the original solid front brake disc to a new drilled & slotted front brake disc. As of March 1st 2024, this new brake disc (along with the original brake disc) will be legal for use at all INEX sanctioned events. These brake discs must be run in pairs (no mixing new style & old style). All rules concerning the original brake discs will apply to the new style brake discs.

Thank you for your cooperation,

INEX
