

5/8/2026

Rule up-date #582026-1

As of May 8, 2026, The following measurement will be changed in the rule concerning the fuel pump vacuum line in the Bandolero section of the INEX rulebook (Page 95 of the 2026 INEX Rulebook):

The current rule stating:

36" is the maximum length for this vacuum line.

Will be changed to:

38" is the maximum length for this vacuum line.

Thank you for your cooperation.
