

Road Course World Finals Makes Inaugural Visit to Hallett Motor Racing Circuit in 2027

HARRISBURG, N.C. (September 29, 2026) Legend Car racing has been part of Oklahoma's motorsports landscape for nearly as long as the Legend Car itself has existed. In 2027, that history will reach a new milestone as Hallett Motor Racing Circuit hosts the INEX Road Course World Finals for the very first time, October 22nd-24th.

A longtime supporter of the INEX Racing Series and U.S. Legend Cars International, Hallett Motor Racing Circuit has been a home for Legend Car competition for more than 25 years through its COMMA Racing Series. Now, some of the best Legend Car road racers will converge on the Oklahoma circuit with national championships on the line.

Hallett owners and managers Scott & Jennifer Stephens quoted "We couldn't be more excited to host the iconic INEX Road Course World Finals for 2027! Our track, designed by a racer, maintained by a racer, is a favorite because of its combination of high difficulty, exhilarating elevation, and race ability. Combine that with massive facility improvements and one of the best safety teams in road racing, we will be ready! Stay tuned to Hallett Motor Racing Circuit's official INEX Road Course World Finals page for event information as it develops until we see you next fall @ HMRC."

Centrally located in the US between Tulsa and Oklahoma City, Hallett Motor Racing Circuit is a challenging 1.8-mile natural-terrain road course known for its technical layout and elevation changes celebrating 50 years of operations. In 2027, it will become the 10th different venue to host the INEX Road Course World Finals, a required event for every driver pursuing a Legend Car road course national championship.

"When you talk to competitors who regularly race at Hallett, or even who call Hallett their home track, there is nothing but positive reviews," said Brittany Beck, Events Manager for INEX Racing Series. "From the competition the track inspires, to the friendly staff, INEX is more than pleased to bring Road Course World Finals to Hallett."

The first INEX championship event ever held in the State of Oklahoma will roar to life on Friday, October 22nd with practice for Legend Cars. The intensity ramps up on Saturday, October 23rd with final practice before qualifying and heat racing set the stage for championship features. Then, on Sunday, October 24th, the weekend culminates with championship features that will help decide final points standings and crown national and state champions.

The racing won't stop there. As an added bonus for Legend Car drivers, Hallett Motor Racing Circuit will host its final round of COMMA race series "Legends of Hallett Hollow" event the following weekend, October 29th-31st, giving competitors another opportunity to tackle the challenging Oklahoma road course...going the opposite direction! Another cool feature of this track.

"The support Scott and Jennifer Stephens have shown INEX and Legend Car racing over the years deserves our heartfelt thanks, and we're excited for drivers who have yet to experience Hallett to get their first opportunity to take on the track next season," added Beck.

Additional event details and the complete schedule will be announced at a later date.
